OPERATING ENTITY & LSSI-CE DISCLOSURE

SEC-CREATOR-2026 | v2.8.4 | EN

Effective Date: **2026-11-15**

CREATOR HUB & CONTRACT TERMS

Independent contractor agreement, 2257 guidelines, 90% Founding / 80% Standard net revenue split, and creator monetization tools.

CONTRACTING ENTITY & 2257 CUSTODIAN

SECCION AI CONCEPT S.L. · NIF/CIF: B05765441

Registered Office: Calle Ingeniero Canales 4, Oficina 1B, 03013 Alicante, Spain
Commercial Registry: Registro Mercantil de Alicante (Tomo 4486, Hoja A 208743)
Creator Desk & Compliance: creators@seccion.ai

FOUNDING CREATOR COHORT SUMMARY

First 500 verified creators retain 90% Net Revenue (10% platform margin) plus 1 full year of complimentary AI Operations & Contract Copilot access. Permanent guaranteed standard baseline thereafter: 80% Creator / 20% Platform. Open Banking & USDC Crypto carry 0.0% gateway toll.

1. AGE VERIFICATION & KYC GATES

MAGIC TRANSLATION (TL;DR)

Zero minor tolerance. You must be 18+ to view or post. If you're a creator, you must clear DIDIT biometric liveness checks and upload a valid government ID before you can share posts, launch live streams, or receive tips.

LEGAL TERMS

The Platform maintains a strict gating system to prevent minors from accessing or publishing content. Before publishing content, launching live streams, or enabling monetization features (subscriptions, tips, goals), creators must complete KYC Tier 3. This requires:

- **ID Verification:** Submit a clear, unexpired scan of a government-issued photo ID through our zero-knowledge identity gateway (DIDIT).
- **Liveness Holding Selfie:** Complete a biometric liveness check holding your government ID to prove identity ownership.
- **Digital Model Release:** Sign the cryptographic digital Model Release Agreement confirming your voluntary participation and commercial consent.
- **Sanctions & Watchlist Screening:** All creators undergo automated screening against international registers (including US OFAC, EU, and UK watchlists). Onboarding is prohibited for blocked/sanctioned individuals or residents of embargoed territories.
- **Life of Records:** All identity documentation is encrypted and stored securely for the duration of platform operations plus an additional 5 years.

2. 90% FOUNDING / 80% STANDARD NET REVENUE SPLIT & TAX REPORTING

MAGIC TRANSLATION (TL;DR)

Founding Creators (first 500 verified) keep 90% of Net Revenue, and all subsequent creators keep our permanent 80/20 guaranteed standard split. Open Banking and USDC Crypto carry 0% gateway toll, while card fees are shared 50-50 cleanly. We report payouts under EU DAC7 and US IRS 1099 rules.

LEGAL TERMS

Creators on SECCION operate as independent contractors (Article 1255 of the Spanish Civil Code) and retain 90% (Founding Cohort) or 80% (Permanent Standard) of Net Revenue on subscriptions, tips, DRM unlocks, and custom escrow orders. Net Revenue is defined as Gross Customer Payments minus shared gateway processing fees (Open Banking A2A, Instant USDC settlement, and digital payment rails).

- **Net Revenue Payout Formula:** Creator Payout = 90% (Founding) or 80% (Standard) × (Gross Revenue − Shared Payment Processing Fees). SECCION retains 10% (Founding) or 20% (Standard) of Net Revenue. Open Banking & USDC Crypto carry 0.0% gateway toll.
- **Independent Contractor Status:** Creators set their own pricing, schedules, and content output with zero exclusivity lock-in and zero employment subordination to SECCION.
- **Tax Identification & Authority Reporting:** Creators are solely responsible for reporting and paying applicable taxes. Under the EU DAC7 Directive (2021/514) and IRS regulations, the Platform verifies your TIN/NIF/NIE and VAT details and reports annual creator transactions to AEAT and relevant tax authorities (including Form 1099-NEC where applicable).
- **CNMC Registration & Transparency:** In compliance with Spain's General Law on Audiovisual Communication, the Platform complies with National Media Service Provider transparency rules, Ultimate Beneficial Ownership (UBO) disclosures, and advertising revenue reporting.

3. CO-PERFORMER VERIFICATION & 2257 RULES

> **MAGIC TRANSLATION (TL;DR)**
> *If you film with a partner, they must be verified too. No exceptions. We require a government ID and a liveness selfie holding that ID for every single co-performer before you post the content. Unverified background appearances trigger immediate removal or suspension.*

LEGAL TERMS

To protect payment rails and comply with U.S. 18 U.S.C. § 2257 and European adult safety regulations:

- **Co-Performer KYC:** Collaborative or co-performed explicit content cannot be uploaded unless all participants are verified members of the Platform and tagged in the post.
- **Selfie Holding ID & Signed Release:** Creators must collect a government photo ID, a liveness selfie of the co-performer holding their ID, and a signed consent release prior to upload.
- **Background Auditing:** Ensure that no unverified individuals or minors appear in the background of any uploaded content. The presence of unverified bystanders is a primary trigger for permanent account suspension.

4. ANTI-PIRACY & CONTENT WATERMARKING

> **MAGIC TRANSLATION (TL;DR)**
> *We protect your content using visible tags and invisible steganographic signatures embedded secretly into media. If someone leaks your work, we trace their subscriber account and issue automated DMCA takedowns immediately.*

LEGAL TERMS

SECCION equips creators with advanced technical safeguards to protect their intellectual property:

- **Visible Watermarks:** The Platform optionally overlays your username or stage name onto images and videos.
- **Invisible Steganographic Watermarks:** Advanced forensic tracking signatures are invisibly embedded into media files, enabling identification of the specific subscriber account responsible in the event of a leak.
- **Automated DMCA Takedowns:** SECCION provides automated workflows to generate and dispatch Digital Millennium Copyright Act (DMCA) and EU copyright takedown notices to third-party hosts and search engines hosting stolen media.

5. CREATOR BACK-OFFICE AI SUITE & SAFETY TOOLS

> **MAGIC TRANSLATION (TL;DR)**
> *Keep 100% ownership of your brand with AI tools built to replace 40% talent agencies: scan predatory contracts, translate DMs live across languages, and geofence regions to protect your local privacy.*

LEGAL TERMS

To render exploitative talent agencies obsolete, SECCION provides automated AI tools and privacy filters:

- **Contract Copilot:** Our built-in legal scanner reviews brand sponsorship contracts and agency agreements, flagging predatory terms such as perpetual likeness lock-in clauses or exclusive IP forfeitures.

- **Operations Assistant:** AI assistant helps manage custom booking requests, schedule live streams, draft promotional copy, and translate chat messages (text and voice notes) in real-time.
- **Geofencing & Blocking Filters:** Protect your local identity by geofencing specific countries, states, or cities, preventing profiles in those regions from seeing your streams, content albums, or discovery cards.
- **Creator Safety PO Box & Business Banking:** Creators are strongly advised to use a distinct stage name, registered PO Box, and dedicated business bank account for tax and business registration.
